

FAKULTI SAINS

Maklumat Am

Fakulti Sains mula ditubuhkan sebagai Bahagian Sains Asas pada tahun 1972, dan telah melalui beberapa proses penstrukturkan dan sekarang ini Fakulti Sains terdiri daripada empat jabatan iaitu: Jabatan Biologi, Jabatan Kimia, Jabatan Matematik dan Jabatan Fizik. Visi Fakulti adalah selaras dengan objektif UPM, iaitu untuk menjadi pusat pendidikan, penyelidikan dan pengembangan dalam bidang sains yang terbilang.

Sebagai sebuah fakulti dalam sebuah universiti penyelidikan, Fakulti Sains bersedia membentuk dan mencorak pelajar supaya menjadi graduan sains yang berfikiran kritis dan kreatif dan bersedia untuk menghadapi pasaran kerja, atau melanjutkan pengajian ke peringkat siswazah. Program prasiswazah dibentuk untuk memberikan asas yang kukuh dalam bidang teras dan untuk membentuk perspektif sains. Ilmu dan kepakaran disampaikan kepada pelajar oleh pegawai akademik yang cukup terlatih dan berpengalaman, menggunakan kaedah pengajaran dan pembelajaran yang bersesuaian dan berkesan serta disokong oleh kemudahan yang terkini.

Kualiti pensyarah dan penyelidikan yang dijalankan di Fakulti Sains mendapat pengiktirafan di peringkat kebangsaan dan antarabangsa. Setiap tahun pegawai akademik menerbitkan beratus artikel penyelidikan dalam jurnal dan memenangi banyak anugerah penyelidikan. Fakulti juga adalah di antara penerima geran penyelidikan yang terbesar di UPM dan sentiasa berusaha untuk memperbaiki rekod yang telah dicapai. Fakulti Sains juga merupakan salah sebuah fakulti yang bertaraf lima bintang melalui penarafan MyRA, Kementerian Pengajian Tinggi.

FACULTY OF SCIENCE

General Information

The Faculty of Science was initially established as the Division of Basic Sciences in 1972 which subsequently underwent several restructuring processes. Presently the Faculty of Science consists of four departments, the Department of Biology, Department of Chemistry, Department of Mathematics and Department of Physics. The Vision of the Faculty, consistent with one of the University objectives, is to be a renowned center of education, research and development in the field of science.

As a faculty in a research university, the Faculty of Science is well equipped to mould and transform students into critical and creative-minded science graduates who are ready for the job market or to continue their studies at the post-graduate level. The Undergraduate programs at the Faculty are designed to provide a strong foundation in core areas and to develop scientific perspectives. Knowledge and expertise are imparted to the students by the well trained and experienced academic staff, using appropriate and effective teaching and learning techniques supported by up to date facilities.

The quality of the lecturers and the research carried out at the Faculty of Science has received recognition at national and international levels. Each year, the Faculty's academic staff members publish hundreds of research articles in journals and win many research awards. The Faculty which is also one of the largest recipients of research grants in UPM, continuously strives to improve on its excellent past records. The Science Faculty is also one of the faculties which achieved five star rating in the Ministry of Higher Education's MyRA assessment.
